

F- ACTIVITY REPORT

Interoffice Memo

LONE STAR INDUSTRIES, INC.

One Greenwich Plaza, Greenwich, Connecticut 06830

Originating Office: Seattle Cement Plant

Date: February 23, 1984

BUSINESS CONFIDENTIAL

TO: A. C. Imhoff

FROM: K. J. Rone

SUBJECT: Activity Report - Week Ending 2-19-84

EPA Region 10 Superfund

RELEASABLE

Date 2/13/08

Initial RM for GS

1. Need decision on replacement of Mr. Williamson, sand unloading station, brokerage of Canadian coal, #14 and #24 kiln tires.
2. Pioneer Construction Materials complained of difficulties pumping off, getting cement out of bins, mixer buildup, hot cement and false set from silo 16. Switched to silo 21 and will take temperatures on all cement shipped to Pioneer.
3. FERC has issued license to Puget Power to operate Bear Creek.
4. Contacted by representative of Delridge Land Use Committee about "Lime Problem". See Mr. Mitchell. PSAPCA says no new developments concerning DLUC.
5. Contacted by Mr. Niemi, who had heard that Lone Star was going to quote Type G to Alaska direct. Referred him to Mr. Lancaster. See Mr. Hawley.
6. Burned 10 tons of sawdust as supplemental fuel. Results warrant further development.
7. Advised by Mr. Ricci that he will handle settlement of grievance 3-84 at special meeting near the end of February. See Mr. Ricci.
8. Wet/fine coal severely interrupting kiln operation. Production off 20%. Most practical solution is to use it up ASAP.
9. Seattle City Light staff has recommended to Seattle City Council that the Mayor's recommended rate increases be ignored and a flat 31% across-the-board increase be applied. This reduces our increase by 10%.
10. One grievance; no accidents, no visitors.
